And here's some important information about your classes:

- You'll have two different teachers in your English classes.

The English Programme at Bromsgrove International Summer School with International House Bristol

The English programme has been designed by a team of experienced international teachers and teacher trainers to ensure your students make rapid progress in English in an enjoyable and memorable way.

We have created workbooks of our own specially written materials at four levels for younger learners and six levels for teens. This ensures that all the lessons are stimulating, active and enjoyable. Your students will receive a personal copy of our workbook at the right level each week – not just a collection of photocopies.

To ensure students are actively involved in every class, our materials include quizzes, error awareness, gap-fills, class projects, games, discussions, live writing, dictations, role plays and much more.

Our workbooks also help students discover many aspects of the life and culture of Britain, which enables your students to get more from the visits and excursion.

The week has been carefully planned to provide a balance of speaking, listening, reading and writing, with appropriate emphasis on grammatical accuracy and lexis development.

What's more, each week our teachers will teach students around 100 useful communicative words and phrases in English – called our Project 100. This shows students how much progress they are making from day to day, and builds up into a collection of language that will help your students sound more fluent and more natural in English.

Each class has at least two different teachers, who work closely together as a team to monitor the progress of each student. This helps also with classroom management and with important decisions about students who need to change class.

Students are tested to find which level is most appropriate on the first morning, and their progress in class is monitored by the team of teachers under supervision of our Academic Manager. On completion of the course, each student receives a combined leaving certificate and progress report.
